校長的話

李偉栢校長

今年是一個艱難的學年，在新型冠狀病毒疫情影響下，自去年（2020年）11月開始，全港學校已停止面授課堂。為確保學生的學習進度不受影響，學校按學生在各學習階段的需要，靈活運用不同的學與教模式，例如：製作教學短片、進行實時網上授課、使用網上平台系統支援學生學習，讓學生「停課不停學」。我衷心感謝學校團隊，在這不一樣的學習環境，透過多元教學模式提升學生的學習動機、訓練自主學習技能，又鼓勵學生建立積極樂觀的心境，學會關懷身邊的人。

感謝神的恩典與帶領，5月下旬，我們終於全面恢復面授課程。不少學生在復課後都前來向我訴說心中情：「在家學習多悶呀！我喜歡和同學聊聊天，喜歡在學校上實體課。」他們在這段艱難的日子中都各有體會，特別珍惜校園學習的美好時光。以往視作理所當然的，現在也視若珍寶。對他們而言，學校不止是一個尋求知識的地方，更是一個和老師、同學相處，留下成長印記的寶貴之地呢！

儘管受疫情影響，不少學生活動一再取消，連帶一年一度的陸運會亦未能如期舉行，但學校仍期望學生能抓緊每個學習階段的重要時刻，故特意安排新興運動體驗活動日，活動包括：「法式滾球」、「芬蘭木棋」及「地板冰壘」，讓學生能夠接觸世界各地的運動和文化。當日，各同學都樂在其中，體驗了常規課堂以外的趣味。

當教育局准許學校分階段復課時，老師們亦著手籌辦為期一星期的「SimCity」英語活動，讓全體同學都能參與本校的年度盛事，寓學習於遊戲。全面復課後，六年級畢業典禮也在6月上旬順利舉行。我們更萬分榮幸，邀請了香港聖公會香港島教區謝子和主教蒞臨本校，擔任主禮嘉賓，共享喜樂，典禮在一片掌聲和歡笑聲中完美落幕。在此，我衷心希望各畢業生能帶着美好的回憶與豐富的知識展開新里程，在校學生也能懷着勇敢堅強的心，精力十足地迎接新學年的挑戰。

疫情總會過去，雨後總會天晴。

SimCity Once Upon A Time in SimCity

It all started when SimCity 2019 was cancelled due to an abrupt end of the last school year...

Classes were further suspended for more months. School finally resumed in April 2021! Every teacher and student are busily catching up with learning. Everyone works hard.

A fun-filled school activity has never been more important and meaningful as many others were either cancelled or switched to other online modes. So...

WE WANT SimCity!

Actually, preparation started much earlier. Flashing back to September 2019, well before the pandemic, the theme 'Once Upon A Time in SimCity' was first discussed among English teachers. It was every English teacher's wish that our students would enjoy English through reading classics. How painstaking it was for the teaching team to let go of a lot of good stories before we finally got 6 best ones for our students! Books were ordered. Activities were designed. Everything was ready and what we needed was an appropriate date for SimCity.

We were very happy as SimCity finally came to light in April 2021. Before Easter holiday, teachers assigned online holiday reading. Students read and responded to the stories in forms of book reports, race-cart making and a design of a bookmark for exchange. Though it may be different, SimCity fun is there for everyone.

Look at our race carts!

We like The Hare and The Tortoise!

We like The Three Little Pigs!

The cart racing is so exciting!

We are ready to let it go!

We enjoy SimCity a lot!

We made our own race carts!

The supervisor of Tak Tin Lee Shiu Keung Primary School, Ms Wong, joined SimCity and spent precious moments with the students. Michelle, one of the SimCity helpers of the day, has shared her feelings about the wonderful day.

I escorted Ms Wong in SimCity - My First Time as a SimCity Helper

I was so excited the day I knew I would be a SimCity helper who can introduce the activity to our Supervisor Ms Wong. I practiced a lot about how to do the introduction. I wanted to make sure everything went well. I was so excited and maybe a little nervous. I could not sleep well for nights. SimCity is definitely a big school event to all T'TLSK students. I really hoped that Ms Wong would like this visit.

At about 10 o'clock, Ms Wong arrived. We gave our warmest welcome to her at the school parking lot and then escorted her to SimCity. In the elevator, I tried to introduce our beloved SimCity to Ms Wong. Thanks to Miss Koo and my effort, I finished my part very well. When we stepped right into SimCity, everyone in the hall clapped and welcomed Ms Wong. We introduced the game booths to Ms Wong one by one. She was such a nice leader! She took many photos with us. She praised us for our good English.

How time flew! SimCity Week was over. One morning after SimCity, our headmaster Mr. Li praised me for my work as a SimCity helper. This boosted my confidence and made me happy for the whole day! It surely would be a fantastic memory of mine.

SimCity Once Upon A Time Game Booths

One of the fun elements is the activity booths in SimCity. This year, teachers designed activities featuring the six classic stories.

'The Race' featuring The Hare and the Tortoise

Who is faster?

Can I win the race?

Do you want to be the hare or the tortoise?

'Don't Lie' featuring Pinocchio

Who is waiting for me?

Bookmark Exchange

All students designed their own bookmark after reading the assigned story. They shared their finished work in display charts. The best ones were picked and a vote was arranged to choose the best design among the best ones.

After SimCity, all bookmarks were sent to be sanitized before they were exchanged among students.

SimCity The Park - Cart Racing

The Park has always been the students' favourite booth of SimCity every year despite different themes. This year, students can add their favourite characters of the books on their own carts. We have especially asked the student helpers to record a video to help the students to make their own carts at home easily.

Anson and Marcus of Class 5C are teaching how to make the race carts

Let's also read how Pinky, one of the participants, shares her feelings about the game.

SimCity is my favourite event. We had SimCity in the hall this year. It is on 23rd April. I had so much fun in SimCity.

There were different games about the books we read before SimCity. Every student got a stamp after playing a game. First I tried my cart in The Park-Cart Racing. There were short and long tracks. I slid my car down the short track. It went fast. Then I tried my cart down the long track. It also went fast. Uh-oh! My cart fell down near the finishing line but it didn't matter. The most important is to have FUN!

SimCity Students' Sharing

The most important element of SimCity is the interaction between students during the activity. SimCity is never possible without active participation of students. According to the theme this year, students have shared their thoughts on the classic stories through book reports. P.6 students are especially invited to present their review orally.

Scan and watch the video!

SimCity helpers are also the key of the activity. Every year, teachers invite and train friendly and responsible students to become SimCity helpers. This year, all P.5 students were invited to help in SimCity. Among them, there is an amazing team which impresses many and worths a record.

Last week, I was a helper in SimCity. I was given a duty in Cart Racing. I told my schoolmates how to try their carts. I served our special guest, the school supervisor Ms Wong too! My schoolmates and I all like her because she is nice!

I enjoyed being a SimCity helper because I love helping people who need help. I was very tired after I finished my work but I felt glad.

Wu Ming Shing, Mingson 5C

Do you enjoy SimCity?

At SimCity, I was the person who helped my schoolmates fix their carts. At the same time, I made sure that they played the carts safely. Marcus and I also made a cart for our special guest, Ms Wong. She got the cart and played with it happily.

I enjoyed being a SimCity helper. Although it was tiring, I could help my schoolmates. It worths!

Wong Chung Tim, Wilfred 5C

At SimCity this year, I worked like a security guard - I helped teachers maintain order and discipline among schoolmates. I also reminded them to keep a social distance. Although I was busy as a bee, it was meaningful. I enjoyed being a SimCity helper!

I would like to make a suggestion for the race cart activity - we can get a longer track. This will make the players even more excited!

Lam King Lok 5C

Before SimCity, I took part in a video shooting that teaches my schoolmates how to make their carts. I demonstrated the steps in the video.

During SimCity, I had a duty in the trial race tracks. I worked with my classmate Mingson. When my schoolmates walked to the tracks, some of them did not know what to do. I told them to try their carts there. I also guided our special guest Ms Wong how to run a cart when she visited SimCity.

I enjoyed being a SimCity helper because I could help my schoolmates. I liked giving stamps on their passports too! It was fun!

Wong Yiu Ting, Anton 5C

Student helpers are having a briefing for SimCity

Before SimCity, I took part in a video that shows my schoolmates how to make a race cart. I wrote the video script and practiced reading it clearly.

During SimCity, I helped my schoolmates fix their broken carts. It was an amazing activity!

I really enjoyed being a helper because I could help a lot of schoolmates and it was fun!

Cheuk Sin Hang 5C

Thank you, student helpers!

數學

因疫情關係，奧數培訓只集中在四至六年級，以拔尖培訓的模式進行，並以網上課堂形式授課。為令學生更掌握「模型思考法」，老師透過電子教學軟件「Nearpod」作整合教授。

項目名稱 數棒 括號 數目 問號

解答：15 + 6 = 21(元)

學生亦可從教學片段自學模型思考法

STEM

本校今年舉辦的STEM相關課程非常多元化，包括機械人校隊、由香港科技大學舉辦的《聰明小車工作坊暨遙距繞圈體驗》、4D Frame興趣班及STEM拔尖組，目標為發展學生的計算思維、解難能力、創造力及「動手做」的能力，並建立其同理心。

學科活動

視覺藝術

本年度，視藝科舉辦了不同形式的校內活動，旨在給予學生機會實踐，藉以激發其藝術潛能及思考能力。學生能透過製作圖像、印章及文字，去呈現獨一無二的個人作品。大家也熱衷於展示自己的作品，亦能善用平板電腦作分享媒介。

音樂

管弦樂團於上學期期間將課程改為ZOOM模式，以達致「停課不停學」，令學生在家亦能感受音樂的氛圍。下學期回復實體課，大家也非常珍惜能夠合奏的機會呢！而第十屆春雨主題曲歌唱比賽，我校亦派出數位學生參賽，以錄製影片的新模式進行。學生到錄音室進行錄影，大家紛紛表示這次體驗非常新穎。

閱讀課

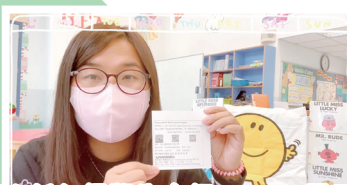

本學年，圖書館增設網上頻道，定期發放有關閱讀的短片，讓學生安坐家中亦可觀賞不同的圖書推介及分享影片。為提升低年級學生的閱讀興趣，館內新增Read with Mr Men英文有聲電子圖書予一、二年級學生，每本書皆附上閱後小遊戲，鼓勵學生多閱讀英文圖書。面對疫情帶來的學習影響，老師更特別挑選以正向教育、情緒教育作主題的圖書，為學生打氣。

學科活動

本學年運動會因疫情關係取消，但學校於復課後隨即舉辦校內新興運動體驗日，讓學生一嘗不同類型的體育運動，培養他們對體育運動的興趣。當中包括老少咸宜的北歐傳統運動芬蘭木棋、冬奧運動冰壺（陸上版本）和具百年歷史的法式滾球運動。

為提高學生綠化意識、培養他們對種植的興趣，同時讓他們珍惜得來不易的小生命，學校鼓勵學生積極參與康樂及文化事務署所舉辦的「一人一花」計劃，並邀請學生把成果分享給老師和同學，感受生命帶來的喜悅。

「落穗顯愛」捐贈食物行動

聖經利未記23章記載，「在你們的地收割莊稼，不可割盡田角，也不可拾取所遺落的；要留給窮人和寄居的。」我們鼓勵同學日常吃得簡約，用得簡約，實踐忍耐節制，把節約下來的食物送給身邊有需要的人。學校以一人一份愛作宣傳，收集由同學愛心捐出的麵、罐頭、麥片等乾糧，轉送「社區食物銀行」，讓上帝的愛傳送到社區。同學們透過活動齊來學感恩、予關懷、好施贈，讓世界更有愛。

我的抗疫日常

1E 林啟澤

我的家中會準備好抗疫四寶，外出時，我會記得戴上口罩，常用酒精搓手液，勤洗手。當我閱讀圖書時，我會先用酒精濕紙巾清潔圖書表面，閱讀圖書後，我會徹底清潔雙手。疫情期間，我一定會保護好自己，積極面對疫情，做個抗疫小勇士。

2E 朱梓朗

星期天，我是抗疫大使。首先，我把玩具收拾整齊。然後，我用吸塵機把地板給得一塵不染。最後，我用1:49稀釋漂白水將地板拖洗乾淨。自疫情以來，媽媽都讓我承擔每星期一天的清潔消毒工作。剛開始時，我心裏總是不情願，但為了家人的健康，我漸漸地樂意承擔起保護家人的責任。

3D 鄧承希

雖然不能上實體課，但我仍然能每天上視像課堂；雖然沒有老師親自教導，但我仍然能在網上做功課。這一切都是不可思議的，因為我以前從未嘗試自己上網、視像和玩老師安排的網上遊戲。這個疫情令

我增加了電腦知識和之後的能力。現在網上功課和視像堂已是我的抗疫日常，不再困難了。

4A 張詠嘉

在疫情期間，大家都減少了社交及戶外活動。這段日子，我們不用回校上課，爸爸也留在家工作。我們經常一起做一些手工。雖然疫情帶來不便，但卻令我可以增加和家人相處的時間。每天都過得十分充實。只要抱着信心和希望，保持正面的思維，相信疫情一定會過去的。

5B 袁晞潼

在家時，我每天都會進行各種清潔和消毒，例如抹窗和抹地這些日常家務，雖然比較辛苦，但我和弟弟都清潔得十分開心！外出時，我也會小心翼翼地做好各種防疫措施，所以口罩、酒精和面罩這套防疫三寶是絕對不可缺少的。希望疫情盡快過去，回到以前既簡單又快樂的生活啊！

6C 陳煒辰

在這個疫情期間，人們都盡量減少外出，而我和家人都不例外。雖然我和妹妹都要回校上課，爸爸媽媽都要上班，但我們也加強了衛生意識。例如多消毒房子，勤洗手，出外時戴上口罩等。看到疫情那麼嚴重，我也不得不加強抗疫。現在我覺得用多一點時間來清潔和消毒，是非常值得的。
