Turn a New Page in SimCity

We're back! It's SimCity, again.

This school-based year-round learning project has been implemented since 2007 through joint efforts of ALL teachers, staff and students of TTLSK. We launched the 16th SimCity this year. What could be new in the same project launched 16 times in a row?

The answer is - Everything. We decided to 'Turn a New Page' and started everything anew!

On SimCity Activity Days, we started with an Opening Ceremony with great excitement. We were honoured to have the presence of Mr. Lam Siu Hong, Andy, J.P. (District Officer of Kwun Tong District Office, Home Affairs Department), our school supervisor Ms. Wong Lai Fun, our former principals, guest principals and teachers to share the joy and show their support on our big day.

The highlight of the day was the grand opening of the bookstore Once Upon a Book which was all guided and directed by our student MCs. Guests then explored different places during the tours led by our student escorts while TTLSK students did their best in speaking tasks in different sites including the supermarket, beauty salon, dance school, cinema, café, post office and many more.

Turn a New Page in SimCity

Considered one of the most anticipated school activities, this project weighs even more for this as the first 'normal' SimCity after the pandemic.

How about we 'Turn a New Page' to look into what happened in SimCity 2023?

In-house publication - Turn a New Page in SimCity

With the theme in mind, the school prepared an in-house publication under the same title. This publication, which features useful dialogues and expressions for use in different activity sites, will surely be the most frequently used teaching and learning material all year round.

English learning activities - SimCity Broadcast and SimCity Channel

Before SimCity Activity Week, teachers conducted learning activities like radio broadcasting and role-playing to help students get ready for the speaking tasks on SimCity Activity Days.

SimCity Broadcast – all classes shared the airtime early in the morning. Teachers and students read aloud the book content of the SimCity publication.

SimCity Channel – Role-playing episodes and sound tracks recorded by teachers were posted on the school intranet for us to self-learn after class. How thoughtful!

SimCity Helpers Training

One of the core motives of the whole project is to enhance English learning outside the classroom. Regardless of their English abilities, all students joined SimCity in different roles. It has become a tradition that English Helpers are recruited and their contributions value a lot during the whole event. This year, more than 300 students were recruited as English Helpers to facilitate speaking activities while most students exhibited their English-speaking skills in authentic contexts. A special duty unit – Student Escorts were trained to guide the officiating guests around the city. Their English ability was further stretched in a precious real-life context.

Junior SimCity

To share the joy of being back in SimCity after the pandemic, we invited the participation of kindergarten students, parents and teachers from 24th to 25th April this year. More than 650 young children in the district joined the first ever Junior SimCity during the SimCity Activity Week. Facilitating activities for these young guests was a new and meaningful challenge for our English Helpers.

SimCity Journal Writing Competition

As an English theme-based activity, we won't forget 'writing' which is one of the pillars of English learning. A challenge for all – a writing competition was organized right after the activity week. After the SimCity Week, our students expressed their thoughts and feeling through journal writing. Teachers received a lot of wonderful sharing. It was a pleasure to know that our students have learnt a lot and have also enjoyed the activities just as much!

Here are six pieces of journal, the champion entry from each level.

The Champion in P.1 – Deng Hoi Lam, Charlotte (2D)

This year SimCity is from 27th to 28th April. I go to SimCity with my mum. I can see a cinema, a cafe, a post office etc. in SimCity.

I like Fun@Dance and CitySupermarket the best. In Fun@Dance, some dancers put on beautiful dresses and makeup. The dancing lights are blinking and glowing. We practice a bit of Cha-cha with the dancers. And then we all dance with the music together. I can see everyone move their bodies happily. I enjoy the dance very much.

Then, I go to CitySuperMarket. I can see some fruits, vegetables and other food. I try two cups of food samples. They are yummy! I love shopping! I have a lot of fun there!

I have a good time in SimCity! I wish we can have SimCity every week!

The Champion in P.2 – Chan Chung Yin, Gladys (2B)

This year's SimCity is from 27th to 28th April. I go with my grandma and father and we have a great time together.

There are many things to see, like an art workshop, a cinema and a post office. My favourite place is Makeup Yourself. It is a salon and I have my nails polished there. The colours are so pretty and I have so much fun.

I feel excited and enjoy SimCity a lot but at the same time I am a bit disappointed that we do not have enough time to visit all the shops. I hope to come back next time and try all the activities I missed.

Overall, it is a great experience and I cannot wait to join SimCity again.

The Champion in P.3 – Fung Hei Yuet (3C)

SimCity was held last week. When I think back, my heart is still bursting with joy!

On 27th April, I went to school early to join the SimCity Opening Ceremony. I was very excited!

First, I ran to Makeup Yourself, a salon on the third floor. I wore a gorgeous wig on my head and I had my photo taken by the SimCity helpers there. I loved my new outlook. There was a dance school called Fan@Dance next to the salon. My schoolmates and I learnt Cha-cha together. It was very challenging but we enjoyed it very much.

Next, I went to Central Post Office on the second floor. I got a postcard and I addressed it to my class teacher to thank her for teaching us patiently. I felt great to have this chance to express my gratitude to her.

Finally, I visited the Tea Garden on the first floor. I ordered a cup of ice-cream and a glass of iced lemon tea. They were expensive but delicious. I got a souvenir from the shopkeeper. I was delighted.

I am lucky to study in this school and have the chance to join SimCity with my classmates. I look forward to joining it again next year!

The Champion in P.4 – Leung Chun Hei, Alvin (4C)

This year SimCity Activity Days were held on 27th and 28th April, 2023. Classrooms were decorated according to different themes. Students were allocated into P.1, P.2, P.5 and P.3, P.4, P.6 to join the activities on different days. I was a student helper so I needed to help in those two days.

I was a waiter at one of the sites – Tea Garden. I was responsible for taking orders and bringing food and drinks to the customers. The cafe was so popular indeed. There was a long queue outside the café all the time. Guests and students not only got a chance to order some food and drinks in English, but also had an experience of paying bills in cash or using smart cards or credit cards at the cashier. We tried to serve customers with enthusiasm.

Apart from being a helper, I am also a student bringing my SimCity passport along to get stamps. I visited many interesting sites located from the ground floor to the third floor and completed speaking tasks accordingly. As the time was limited, I only got 16 stamps in total from different sites. One of the stamps I liked best was the ISBN stamp I got from the bookshop named Once Upon a Book. The stamp was special and was stamped on the back of my personally designed book.

I had the most memorable days even though I felt exhausted as a helper. I hope I can have more time to tour around SimCity and get some souvenirs. I look forward to joining SimCity 2024 in the coming year again.

The Champion in P.5 – Lam Tsz Ki, Michelle (5C)

Last week we finally had our SimCity Week which was the busiest but most wonderful week in my primary school life so far. Not only because I got to be a student helper in SimCity, but also because there were lots of fun places to visit and many best classmates to play with. Also, I love the theme of SimCity this year – Turn a New Page in SimCity!

The most unforgettable event was that I joined the grand opening of the bookshop Once Upon a Book as an MC. It was my great honour to host parts of the grand opening and I tried my best to help my teachers to make the process smooth. Comparing to my first SimCity helper experience two years ago, I wasn't that nervous this time and therefore I could make it easier with smiles and confidence on my face.

After the grand opening, I went to the dance school Fun@Dance where I served as a dancing teacher there this year. To be honest, it wasn't easy at all to be a teacher! While I was teaching the younger schoolmates, some of the students were chatting and they were very excited. Suddenly, I realised how tough it is to become a teacher. Although it was difficult, I still had fun. It taught me something new and I enjoyed it!

SimCity is a place where we get to practice our oral English, to serve others, to play various games and most importantly, to learn to communicate with others. Great thanks to our principal, all the teachers and student helpers. Without you, we couldn't have such a great event! After the SimCity Week, I can understand our school motto, 'Not to be served, but to serve' much better than before.

The Champion in P.6 – Ho Hei Yee (6E)

Yesterday was the first day of the SimCity. It was my first time to be an MC in the grand opening of the bookshop named Once Upon a Book so I jumped for joy! When I saw the principals and guests walking down the stairs, I had butterflies in my stomach and I was shaking like a leaf since that means the grand opening was going to start and I needed to talk in front of 30 people! Fortunately, I spoke fluently.

Later on, when the guests were moving to other shops, my teacher told me that I could leave and walk around SimCity with my friends. I decided to play for only 45 minutes and went back to help. The most unforgettable event was getting an ISBN number and promoting my own book to my friends in Once Upon a Book! For the remaining time, I was busy with helping the customers to test which book suits them. All of them took pictures with their suitable books! How about you?

Today was the second and the last day of SimCity. I went to school and helped in the MediCentre. Before going to the MediCentre and doing preparation, I watched a movie with other helpers. The movie was 'The Smurfs'. I have watched the movie before. It was interesting and meaningful. After watching the movie, we went to the MediCentre and started the preparation. Very soon after, the customers walked in one by one. I asked them what happened to understand their conditions in order to give them prescriptions. They were all satisfied of my diagnosis and I felt glorious.

From SimCity, I have learnt to be bolder in to communicate with others in English and I have learnt some new English words as well. It was such a precious and marvelous experience for me in SimCity! Although I won't be able to join the next SimCity at school anymore, I enjoyed this SimCity very much and I hope my younger schoolmates will enjoy the next SimCity just as much!

SimCity was again a success this year – for we see lots of happy learners using English in real life context outside classrooms. Turn a New Page in SimCity would be a book with an open ending. The chapters that follow would be for students and teachers to fill in.

English Turn My Own Page in SimCity

In this school year, all English teachers put together our efforts in the new publication of our SimCity dialogue book – Turn a New Page in SimCity. In response to this new publication, all students had the experience in making their own personal books under the English activity Turn My Own Page in SimCity. Being both the author and the illustrator, each student has created an original fiction or non-fiction with the help of teachers.

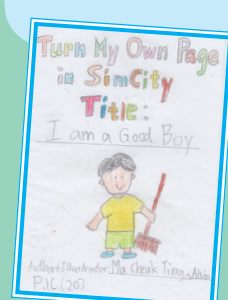

During the SimCity Activity Days, students brought their personalised small books back to school with them to complete one of the tasks in Once Upon a Book. They presented about their own books there. Upon completion of the task, all books were chopped with a special SimCity ISBN stamp. Students were all excited to see their original work going through the book publication!
